Summary

Dynamic and innovative Flutter Developer with a passion for creating visually stunning and intuitive user interfaces. Proficient in leveraging Flutter framework to design and develop cross-platform mobile applications that deliver exceptional user experiences. Skilled in UI/UX principles, wireframing, and prototyping to deliver exceptional user experiences. Strong background in front-end development with HTML, CSS, and JavaScript proficiency.

Education

Pimpri Chinchwad College of Engineering, Pune	August 2021 to June 2025
8.78 CGPA	Bachelor's in Computer Engineering

Projects

Disaster Relief App (SIH)

Developed a comprehensive mobile application aimed at aiding groundworkers during disasters. Enabled groundworkers to request essential amenities from registered organizations swiftly. Implemented a user-friendly map view feature for locating nearby organizations. Integrated a raise alert feature for disaster notification.

Humanitarian Crisis App

An innovative application offering real-time updates on events and emergencies, seamless donation facilities, and awareness campaigns for diverse social causes. Stay informed about ongoing events, effortlessly track donations, and contribute to various social causes with ease.	Feb 18 2024

Skills

App Development

Utilized Flutter framework to design and develop various applications

● ● ● ● ○

Firebase, Android Studio, Dart, Cross-platform Development

UI/UX

Crafted an intuitive and visually appealing user interface to enhance the user experience.

● ● ● ● ○

Minimal, Dribbble, Wireframing, Prototyping

Web Development

Utilized HTML, CSS, and JavaScript to build engaging user interfaces and interactive functionalities.

● ● ● ○ ○

Responsive Design, Front-end Development

Certifications

Flutter & Dart - The Complete Guide	Dec 2023
Udemy	

🔗 <https://www.udemy.com/certificate/UC-a90bbd82-7e9d-4afd-ad45-b6bcc0238104/>

Certified in "Flutter & Dart - The Complete Guide," emphasizing expertise in Flutter, Dart, and Firebase integration for efficient cross-platform mobile app development.

Publications

Low light Image Enhancement (ongoing)

Proposed a novel image enhancement technique fusing deep learning and traditional methods for low-light images. Leveraged an end-to-end zero-reference pipeline integrating global data-driven tone mapping from deep curve estimation network (DCE-Net) with optimized local contrast tuning from Gamma correction.
